**THL CREDIT SENIOR LOAN FUND

New York, New York – THL Credit Senior Loan Fund (the “Fund”) (NYSE: TSLF) today announced the declaration of monthly distributions of \$0.119 per common share, payable on the dates noted below. Based on the Fund’s current share price of \$18.38 as of its close on March 3, 2014, the distribution represents an annualized yield of 7.77%. Information regarding the distribution rate is included for informational purposes only and is not necessarily indicative of future results, the achievement of which cannot be assured. The distribution rate should not be considered the yield or total return on an investment in the Fund.

The following dates apply to the distributions declared:

Ex-Dividend Date: March 17, 2014  
Record Date: March 19, 2014  
Payable Date: March 31, 2014

Ex-Dividend Date: April 16, 2014  
Record Date: April 21, 2014

Ex-Dividend Date: May 15, 2014  
Record Date: May 19, 2014

The distribution is expected to be paid from net investment income (regular interest and dividends). The final tax characterization of the dividend may differ substantially from this preliminary information, which is based on estimates, and the final characterization of such amount will be determined in early 2015. In January or February of each year, investors will be sent a Form 1099-DIV for the previous calendar year that will define how to report these distributions for federal income tax purposes.

As required by Section 19(a) of the Investment Company Act of 1940, a notice will be distributed to the Fund’s stockholders in the event that a portion of a monthly distribution is derived from sources other than undistributed net investment income, such as from short-term capital gain, long-term capital gain, or return of capital.

The investment return, price, yields, market value and net asset value (NAV) of the Fund’s shares will fluctuate with market conditions, and it is possible to lose money by investing in the Fund. Closed-end funds frequently trade at a discount to NAV, which may increase the investor’s risk of loss. There is no assurance that the Fund will meet its investment objective.

Investment return and principal value will fluctuate. Past performance is not a guarantee of future results.
